Fluid hand-cleaning cream

Category:

- Hand-cleaning

Applications

Extra Fluid is a semi-fluid hand-cleanser with a creamy white appearance and a talc-balsamic scent. Extra Fluid cleans well, without irritating the skin and, thanks to its low viscosity, it is easily "pumpable" through the dispenser. It is therefore not necessary to put the hands into the container of the product, thus ensuring maximum hygiene in the workplace.

FIELDS OF APPLICATION: Extra Fluid can be used in all cases where hand cleaning is required and in particular in:

- Mechanical sector (automotive repair)
- Metal mechanic industries
- Wholesale and retail
- Hardware and paint retailers

Method of Use

Take a dose of the product with wet hands and rub hands to allow the disintegration and emulsion of dirt, then rinse. For very stubborn dirt, make sure to use the product with dry hands. If necessary, repeat the operation.

The pH 8 of the product is well tolerated by the hands' epidermis and it helps the degreasing action. The abrasive contained in the product is a very fine mixture of various sizes of polyurethane, and is able to work in every point of the hands.

Produced and packaged in compliance with the European Regulation 1223/2009 and subsequent updates.

On request: Skin irritation test.
