## Flashlux Liquido

Technical data sheet  
n° 240 Rev. 03/03/2014

### Category:

- Polishing cleanser for window fixtures

### Advantages:

- Efficient on wood, aluminium and PVC
- Very high yield

**Cleans, polishes, protects and renews shutters and window fixtures in wood, aluminium and PVC**

### Applications

Flashlux Liquid cleans, polishes, protects and renews all kinds of fixtures, such as wooden, anodised or painted aluminium shutters, wooden and plastic garden furniture such as gazebos, deckchairs and other outdoor wooden structures.

After application, wood and other surfaces remain protected from water and atmospheric agents, allowing minimizing the costly maintenance interventions.

Flashlux Liquid does not turn yellow over time, and at the same time, it gives a certain 'wet look' renewing the colour of the support.

### Fields of application

The formulation has been prepared for both industrial and domestic use, and is optimal for:

- Door and window frame makers
- Carpenters
- Apartment fittings
- Garden furniture maintenance
- Wooden details

### Method of Use

Pour Flashlux Liquid onto a soft, clean cloth and spread it over the part to be treated. Wait a few seconds to allow the product to penetrate and pass over with a polishing cloth. Repeat the operation when necessary.

Product for professional use. The manufacturer declines all responsibility for any damage caused by an improper use of the product.
