# Fuganet

Technical data sheet  
n° 265 Rev. 03/03/2014

## Category:

- Strong grout lines cleanser

## Applications:

- Removes black stains and stubborn dirt from grout lines

## Advantages:

- Highly efficient

Product for professional use. The manufacturer declines all responsibility for any damage caused by an improper use of the product.

## Applications

Fuganet is the ideal product for cleaning grout lines of indoor and outdoor floors. Thanks to its active formulation, Fuganet quickly eliminates grease and limescale that accumulate in the spaces between the tiles, difficult to remove with common detergents. Fuganet ensures a complete cleaning giving new light to the flooring, without corroding it.

Fuganet effectively cleans floor grout lines in:

- Earthenware and earthenware-similar
- Stoneware
- Single-fired ceramics
- Vitrified ceramics

For marble or limestone surfaces, antique floors or uncommon materials, it is advisable to carry out a preliminary test to be sure of the compatibility of the product with the material in question. The product is not suitable for polished marble and other acid-sensitive surfaces.

## Fields of application

Fuganet is used when an energetic floor cleaning is required, for example

- Hotels
- Domestic environments
- Canteens
- Communities
- Building rehabilitation
- Gyms
- Meeting places

## Method of Use

Dilute the product 20-30% in water, pass it on the floor with a cloth or a brush and let it work for a few minutes. Then pass the grout lines with a brush or a rigid plastic brush.  
After cleaning, rinse very well.
