

Industry Line

HB 18/L

Technica Sheet n° 085T
Rev. 30/06/2017

Category:

- Industrial detergents

Applications:

- Removes the most stubborn dirt from industrial vehicles

Punti di Forza:

- Great effectiveness
- No further use of solvents needed.

Product for professional use. The manufacturer declines all responsibility for any damage caused by the improper use of the product.

Applications

HB 18/L it is a liquid detergent, to be used also with high pressure hot water jet machines, ideal for cleaning, degreasing, and the total reconditioning weaving, finishing and textile machinery in general.

Thanks to its effective formulation, the product acts rapidly against the most stubborn dirt.

HB 18/L adapts to all types of high-pressure cleaners and temperature of use.

The combined action of the high-pressure water jet, of the temperature and, above all, of HB 18/L allows a fast and complete cleaning, without any further intervention with solvents.

If diluted properly, the product degreases without damaging or matting varnished surfaces.

Do not use on aluminium and other light alloys.

How to use

Dilute in water at 1:5 – 1:10 depending on the quantity of dirt to remove. Immerse the pieces to be degreased or spray the solution on the parts to be treated.

At the end of these operations, rinse thoroughly with water.
