Smacchia Grès

Technical data sheet
n° 484 Rev. 28/04/2014

Category:

- Special products

Applications:

- Removes stains from porcelain stoneware and polished stones

Advantages:

- Efficacy
- Concentrated product

Product for professional use. The manufacturer declines all responsibility for any damage caused by an improper use of the product.

Stain remover for porcelain stoneware and polished stones. Ideal for removing coffee and wine stains

Applications

Smacchia Grès is a concentrated detergent for cleaning and maintenance of hard surfaces (floors and shelves) in porcelain stoneware and polished stones.

Smacchia Grès has an excellent dirt solubilizing power and acts in depth, penetrating into the micro-capillarity of the tiles, capturing the impurities present, making them surface, and therefore facilitating their removal.

Do not use on polished marble surfaces.

Fields of application

Smacchia Grès is used in the following sectors:

- Hotels
- Household
- Industry
- Craftwork

Method of Use

Smacchia Grès is suitable for both manual and mechanical cleaning.

Normal maintenance cleaning: dilute from 1% to 3% of product in water.

Intensive cleaning: dilute from 5% to 8% of product in water.

Cleaning old or resistant stains: use it as it is.

Spread on the stain with a cotton swab or cloth. Wait a few minutes and remove the emulsified dirt.

It is always advisable to rinse thoroughly after cleaning.
