# Sweeping

Technical data sheet  
n° 247 Rev. 28/04/2014

## Extra strong drain cleaner Does not damage pipelines

### Category:

- Drain cleaners

### Applications:

- Frees clogged drainpipes

### Advantages:

- Extremely efficient
- All purpose use

## Applications

Sweeping frees pipes clogged by inert and organic deposits, from rags, paper, sanitary towels, limescale, grease, soaps, etc. It works in a few minutes, penetrating through the stagnant water, until it reaches the clogged part, without damaging the pipes.

**ATTENTION** Sweeping is a very active sulfuric acid based product and therefore must be used with care, following the caution indications indicated in the warnings.

Do not pour water on the product. Do not use with plungers and do not mix with other chemicals. Do not use after using liquid or flaky caustic soda drain cleaners, sodium hypochlorite (bleach) and other oxidizing agents: dangerous reactions (emission of irritating gases) may occur. Never bend over the drain while the product is operating. If there is a lot of standing water, remove the excess before use. The product can damage galvanized, chromed, painted surfaces, in steel and aluminium.

## Fields of application

- Professional plumbers
- Household use

## Method of Use

For sinks, showers, bidets and bathtubs, pour slowly a quarter of a bottle of product directly into the drain, making sure that it does not come into direct contact with the bathroom fixtures, and wait approximately 10 minutes.

For WC, use half to  $\frac{3}{4}$  of a bottle and wait approximately 20 minutes. For industrial drains, slowly pour half a bottle and wait about 30 minutes. For sewage systems, slowly pour one or more bottles into system and wait about 30 minutes. For large drains, the 25 kg pack is available. In all cases, once the necessary time has elapsed, let the water flow abundantly.

Product for professional use. The manufacturer declines all responsibility for any damage caused by an improper use of the product.
