

## Industry Line

# BLM300

Technical Sheet n° 1005  
Rev. 27/02/2020

### Category:

- Sanitizing products

## Concentrated solution of sodium hypochlorite biocide

### Applications

BLM 300 is a concentrated solution (14-15%) of sodium hypochlorite in water. Compliant with BPR 528/2012 as regards PT 2 - Private areas and public sanitary areas for disinfectants and other biocidal products.

Dilute according to the desired concentrations (3-10% of product in water). BLM 300 can also be applied by spray. Follow the safety data sheet for safe handling.

The product does not affect rubbers and plastics.

Always rinse the materials and equipment in contact with the product thoroughly.

ATTENTION the product can whiten delicate surfaces such as fabrics, woods, etc. Do a preliminary test on a small portion of the surface to check the compatibility of the product with the substrate to be treated.

### Technical features

pH	12
Colour	pale yellow
Density (20°C)	1,2-1,25 g/cm <sup>3</sup>
Tit	14,5% ±1
Alkalinity	<30 g/L

Product for professional use. The manufacturer declines all responsibility for any damage caused by the improper use of the product.
