n° 436 Rev. 28/04/2014

Category:

- Special products

Applications:

- Removes stains from absorbent surfaces

Advantages:

- Efficacy
- Practical spray use

Product for professional use. The manufacturer declines all responsibility for any damage caused by an improper use of the product.

Removes grease stains from earthenware

Applications

Smacchia Cotto is a stain remover for earthenware and other porous surfaces.

The product generates an absorbent layer able to dissolve and absorb all the greasy stains, leaving the tile surfaces free from stains, streaks and halos.

Smacchia Cotto is ideal for cleaning and removing stains from earthenware surfaces, quickly and safely, and keeping them clean for a long time.

Fields of application

The product has been specifically designed to eliminate stains from:

- Indoor and outdoor floors
- Kitchen worktops, fireplaces and barbecues
- Ovens, furnishing objects and any absorbing surfaces.

Method of Use

After shaking the canister, spray abundantly on the grease stain, at a distance of around 30 cm, taking care to cover it completely up with the product.

Allow the treated part to dry and then brush off the absorbent powder formed on the surface.

Next, wash with a normal cleaner for earthenware.

Repeat the operation for particularly stubborn or old stains.
