

Industry Line

Decal-RA

Technical Sheet n° 785
Rev. 12/01/2015

Car and truck radiators liquid descaler

Category:

- Descalers for industrial use

Applications:

- Removes limescale encrustations from automotive radiators

Strenghts:

- Great effectiveness
- Powerful descaling action

Applications

Decal-RA product is an inhibited acid nature descaler, capable of attacking and disintegrating limescale and oxidative residues, which accumulate over time inside the cooling circuits of motor vehicles and cause their malfunction.

Hoe to use

Drain the radiator, pour in Decal-RA and fill with water. The recommended dose is 1 kg of Decal-RA for every 10 liters of water in the circuit.
Run the engine for approximately 30 minutes.
Empty the radiator and to rinse the circuit thoroughly, fill it with water with the bleeder cock open and the engine idling.
Pass water in a continuous flow for 10-15 min. approx. (minimum time necessary).
For radiators not equipped with a tap, follow the vehicle manufacturer's instructions

Technical specifications

pH	<1
Odor	Odorless
Color	Colorless
Density (20°C)	1,100 g/cm ³

Product for professional and industrial use. The manufacturer declines all responsibility for any damage caused by the improper use of the product.
