

Household/ Craft Line

Inoxil

Technical data sheet
n° 104
Rev. 03/03/2014

Category:

- Polishing cleaner for stainless steel

Strengths:

- Cleans and polishes at the same time

Product for professional use. The manufacturer declines all responsibility for any damage caused by an improper use of the product.

Applications

Inoxil is a semi-fluid cream designed for the cleaning and maintenance of stainless steel.

Stainless steel scratches, deteriorates and encrusts with use. Inoxil cleans without scratching the treated objects, keeping them shiny and bright for a long time and restoring the original beauty to the surface.

Fields of use

- Workbenches
- Work equipment
- Home appliances
- Floor them
- Machines for food use
- Sinks
- Cookware
- Ironing equipment

and all materials made of stainless steel, both natural and satin.

How to use

Lift the cap cover and cut off the tip of the dispenser. After shaking the bottle well, pour the product onto a slightly damp cloth and pass it over the surfaces to be treated. After thoroughly deoxidizing and cleaning the steel, rinse thoroughly and dry with a dry cloth.

Remember to close the bottle to prevent the contents from drying out.
