Marmosol Spray

Technical data sheet
n° 589
Rev. 28/03/2014

Category:

- Polisher for marble and granite

Applications:

- Localized polishing and cleaning of marble and granite artefacts

Strenghts:

- Cleans and polishes without scratching
- Practical use in spray

Product for professional use. The manufacturer declines all responsibility for any damage caused by an improper use of the product.

Cleaner - Spray foam polish for surfaces in marble and granite

Applications

Marmosol Spray is able to clean and restore the shine of all marble and granite surfaces.

The product is recommended for cleaning:

- Top kitchens
- Marble and granite tops
- Bathroom surfaces
- Various coatings

After application, it is advisable to use the protective Protector Marmo Spray, in order to keep the shine and cleanliness obtained unchanged for a long time..

Fields of use

Marmosol Spray is very useful when a liquid product cannot be used and when cleaning must be perfect and homogeneous. It can be used to clean all polished-finish marble, granite and natural stone products

How to use

Shake the can well. Dispense the product on the surface to be cleaned and on the rag that will be used. Leave to act for about a minute and pass over the surface to be cleaned with a rotating movement, applying light pressure. If necessary, in case of heavy dirt, repeat the operation. Finally, wipe the treated part with a dry and soft cloth which will enhance the shine of the surface.
